

SmithRX Connect 360

SmithRx can help lower your drug costs.

SmithRx's Connect 360 programs identify and help you navigate various cost savings programs. Many of these programs can help patients obtain medications for little or no co-payment. Connect 360 is constantly evolving and adding programs to ensure members are always getting their medications at the best possible price.

Here is the growing list of Connect 360 Programs:

Access	Capture manufacturer coupon savings on traditional and specialty medications. Members have a low or \$0 copay on prescriptions while also helping employers save on pharmacy benefit costs.
Access Plus	Leverages advocacy foundations and grant programs to reduce cost when a high-cost specialty medication is not covered under the pharmacy benefit. We assist members in navigating and applying to these different programs.
Assist	No more pre-shopping for the best price or printing coupons! Your member ID has all the information that your pharmacy needs to find the best deals for you at the point of sale.
Third Party Sourcing	In the event that Third Party Sourcing is the lowest cost option, if requested by the group, SmithRx can connect members with an independent sourcing company for access to low cost medications.
Mark Cuban Cost Plus Drugs	Mark Cuban Cost Plus Drugs is building an innovative pharmacy model that delivers medications at cost, plus a straightforward 15% markup, along with a \$5 dispensing fee and shipping. Mark Cuban Cost Plus Drugs carries over 1,000 medications and is continuing to expand their drug list weekly.
Autoimmune	Yusimry, a biosimilar for Humira, is now available to SmithRx members at Mark Cuban Cost Plus Drugs. Yusimry offers a more affordable option for members with autoimmune diseases.
Multiple Sclerosis (MS)	The lowest-cost Multiple Sclerosis products on the market through Mark Cuban Cost Plus Drugs. Generics offer substantial upfront savings.
Low-Cost Insulin	This program helps reduce insulin costs at the pharmacy by transitioning to generic and biosimilar insulin products.
Diabetes Non-Insulin (DNI)	Through our partnership with Mark Cuban Cost Plus Drugs, we are offering Brenzavvy, an SGLT2 inhibitor, as the lowest cost option for members with type 2 diabetes.
GLP-1	Addressing the nationwide shortage of GLP-1s while improving accessibility to GLP-1 therapy for our members. The compounded GLP-1 products are intended to serve as a temporary solution during the FDA shortage.
Referral Partner Program (340 B)	Provides members with lower net costs for eligible program medications. By providing access to discounted medications, the 340B program helps eligible healthcare organizations stretch their resources further, enhance patient care, and improve health outcomes.
