

CancerCARE

Right Care. Right Place. Right Time.

Right Care. Right Time. Right Place.

The CancerCARE Program was added to your health plan at no additional cost to you. This is an enhanced benefit and we encourage anyone facing a cancer diagnosis to enroll in the program and take advantage of all resources that are available to you.

Participation in the CancerCARE Programs includes:

Access to a team of cancer experts who help guide you through your care.

Confirmation that you are receiving the most effective treatment for your diagnosis.

Identification of commonly misstaged and/or misdiagnosed cancers.

Access to national Centers of Excellence for complex surgeries, care and second opinions.

Assistance in finding financial and community support.

If you have a new or existing cancer diagnosis, please register today.

CancerCARE

Right Care. Right Place. Right Time.

CancerCARE can make a significant difference in the lives of people facing a cancer diagnosis. Below are some of our favorite testimonials from people who have utilized their CancerCARE benefit to help them navigate their treatment options and overall course of care:

“Struggles turn us into people we didn’t know we could be, and cancer is no different. CancerCARE saved my life when I was misdiagnosed with lymphoma weeks after my cervical cancer diagnosis. They helped me turn my struggle into grace, strength, and knowledge to fight back. And that is an empowering combination.”

~29-year-old mis-diagnosed with Lymphoma

“I don’t know how I would have made it through this treatment without your help and support. It is great to know if I have questions or problems, I can just call, and you angels take care of it.”

~56-year-old with Esophageal Cancer

“It is so nice to have someone fighting for me and helping me through all of this.”

~29-year-old with Ovarian Cancer

“I’m not sure what I would have done without your help. You arranged for a second opinion at a hospital I didn’t even realize I could go to and they recommended a totally different treatment. I have no way to thank you for possibly saving my life.”

~49-year old with Renal Cell Carcinoma

Please register today if you have a new or existing cancer diagnosis.
